

Allfast Solutions is proud to align itself with the largest manufacture of Abrasives in Europe, Dronco. Having snoop numerous awards in the abrasive industry, Dronco's extensive range of cutting, grinding and flap disc are made of the highest quality and its performance a cut above its competitors world wide.

Made in Germany, approximately 250,000 disc are manufactured on site every day and a new product introduced every 90 days, making the company recognisable for its initiative and overall research.

The *NEW* Evolution is finally here.....

Clearly **faster** – clearly **more precise** – clearly **better**: top class cutting disc in the best quality. For precise accurate cutting to the millimeter and extremely fast cutting with minimum power consumption.

No burring, no blue thermal discolouration.

Outstanding optimised tool life.

For use on:

- Normal or stainless steel
- Thin sheet metal and thin walled profile
- Composite material

The Evolution Line

Designed by experts and made of top quality raw materials, these all round cutting discs combine outstanding service life with high cutting speed.

- manufactured according to EN 12413
- complies to oSa regulations

**True performance,
maximum safety,
great price,**

You will be impressed!

innovation is,

when the market says **“Wow, I need it”**
