

Welcome to Rontgen New Zealand

Robert Röntgen is one of the leading manufacturers of metal band saw blades world-wide. Based on our long experience in producing metal saw blades we supply standard and custom made solutions for the metal cutting industry. With our range of bimetal and carbide tipped band saw blades for cutting of standard materials up to super alloys, Robert Röntgen supplies high quality saw blades for your cutting application.

Reliable and **cost-efficient** performance on your sawing machine is guaranteed.
Come and experience our service and the quality of our products
